## In this report

2 **Ketu's move, the other end of the same axis**
Ketu's passage helps in some months and asks care in others.

3 **What is crossing your chart**
This stretch runs until 25 Jan 2027.

4 **Where your chart is supported, and where it is thin**
Your chart supports Kanya (Virgo) most, with 38 of the 56 points a sign can hold.

## What to do next

- Keep your temper, and give rivals nothing to use against you.
- Hold your place at work steadily, and keep family disagreements small.

## 1 Rahu's move, and the dates it actually takes

> **Sample (invented birth), Rahu's passage helps in some months and asks care in others. The table gives the date each part begins and ends.**

Every house number here starts from your Moon sign, Mesha (Aries), which counts as the first. Numbers taken from your rising sign would differ for the same sky.

Until December 2026, when you are 34, is a good stretch, mostly in how you feel, as Rahu passes. What it tends to bring: for you, happier days. Use the easier months to settle matters left open. (Why: Rahu moves through the eleventh from your Moon sign, in Kumbha (Aquarius), a good place for it.)

December 2026 to June 2028, when you are 34–36, is a good stretch, mostly with money, as Rahu passes. What it tends to bring: with money, gains. Put your effort into your work; it pays now. (Why: Rahu moves through the tenth from your Moon sign, in Makara (Capricorn), a good place for it.)

From June 2028, continuing past November 2029, when you are 36–37, asks for care, mostly with money, as Rahu passes. What it can bring: with money, losses. Check twice before you commit money. (Why: Rahu moves through the ninth from your Moon sign, in Dhanus (Sagittarius), a hard place for it.)

| Sign | From | To | House | Your chart's score | What the traditional table says |
|---|---|---|---|---|---|
| Kumbha (Aquarius) | — | 5 Dec 2026 | 11 | not scored | Favourable |
| Makara (Capricorn) | 5 Dec 2026 | 24 Jun 2028 | 10 | not scored | Favourable |
| Dhanus (Sagittarius) | 24 Jun 2028 | — | 9 | not scored | Not favourable |

Read this before anything is arranged around the date. Two ways of computing it are in daily use, and they do not agree. This document uses Thirukanitha, from the positions themselves. It takes the two shadow planets at their mean position, the

steady average of their path. A great many temples and traditional practitioners follow Vakya, which works from older tabular rules. For the shadow planets, the two dates for one move can fall weeks apart. An almanac that takes their true position rather than the mean one gives a different date again. If a priest or a printed almanac gives you another date for this move, that is almost certainly why. Neither of you is wrong about the sky. Before a date is used for anything, settle which way of computing it your family follows.

The two tables carry the same dates on purpose. The two shadow planets move together, six signs apart, and change sign on the same day. What differs is the part of your life each one touches, seen from your Moon. (Why: the two shadow planets are Rahu and Ketu, one axis, always exactly opposite, moving backwards through the zodiac.)

---

## 2 Ketu's move, the other end of the same axis

> **Ketu's passage helps in some months and asks care in others.**

Until December 2026, when you are 34, asks for care, mostly at work, as Ketu passes. What it can bring: at work, trouble from rivals and cousins; for you, a short temper and anxiety. Keep your temper, and give rivals nothing to use against you. (Why: Ketu moves through the fifth from your Moon sign, in Simha (Leo), a hard place for it.)

December 2026 to June 2028, when you are 34–36, asks for care, mostly at work, as Ketu passes. What it can bring: at work, a position that is hard to hold; with family and friends, trouble through relatives; for you, low spirits. Hold your place at work steadily, and keep family disagreements small. (Why: Ketu moves through the fourth from your Moon sign, in Karka (Cancer), a hard place for it.)

From June 2028, continuing past November 2029, when you are 36–37, is a good stretch, mostly at work, as Ketu passes. What it tends to bring: at work, a new post or position, honour and recognition and success in what you take up; with money, money coming in; with family and friends, joy through children, or a child born into

the family; for you, good health and happier days. Put yourself forward for the post or the task you want; this stretch backs you. (Why: Ketu moves through the third from your Moon sign, in Mithuna (Gemini), a good place for it.)

| Sign | From | To | House | Your chart's score | What the traditional table says |
|---|---|---|---|---|---|
| Simha (Leo) | — | 5 Dec 2026 | 5 | not scored | Not favourable |
| Karka (Cancer) | 5 Dec 2026 | 24 Jun 2028 | 4 | not scored | Not favourable |
| Mithuna (Gemini) | 24 Jun 2028 | — | 3 | not scored | Favourable |

These are the same dates as the table above. The two shadow planets always change sign on the same day. What differs is the part of your life this one touches, six houses on from the other, seen from your Moon. (Why: the two shadow planets, Rahu and Ketu, are one axis.)

## 3 What is crossing your chart

> **This stretch runs until 25 Jan 2027. Your chart holds 6 of eight there. (Why: Guru (Jupiter) is crossing Simha (Leo), the fifth from your Moon.) Shani (Saturn), Rahu, Ketu are moving through this window too, and the table below gives each one's dates.**

Sample (invented birth), right now, and until May 2032, you are in the seven and a half years people call Ezharai Sani (Sade Sati). You will be 40 when it ends.

Sade Sati runs alongside your own life periods, and they shape how its years feel. Here is each stretch of it, under the period of your life running then.

November 2026 to March 2027, when you are 34–35, the Sade Sati years fall in a quiet stretch of your life. What you feel then is mostly Saturn's weight. (Why: this is the Ketu sub-period of your Chandra (Moon) period.)

March 2027 to November 2028, when you are 35–36, the Sade Sati years fall in a stretch that also asks for care. It can bring loss through theft, being misled and setbacks, so keep commitments small then. (Why: this is the Shukra (Venus) sub-period of your Chandra (Moon) period. Shukra (Venus) rules your sixth and eleventh houses and is not well placed: it stands in your twelfth house.)

November 2028 to May 2029, when you are 36–37, the Sade Sati years fall in a good stretch of your life. It tends to bring prosperity shared with the family, good works and favour from people in authority. (Why: this is the Surya (Sun) sub-period of your Chandra (Moon) period. Surya (Sun) rules your ninth house and is well placed in your chart.)

May 2029 to October 2029, when you are 37, the Sade Sati years fall in a quiet stretch of your life. What you feel then is mostly Saturn's weight. (Why: this is the Sevvai (Mars) sub-period of your Sevvai (Mars) period.)

October 2029 to November 2030, when you are 37–38, the Sade Sati years fall in a quiet stretch of your life. What you feel then is mostly Saturn's weight. (Why: this is the Rahu sub-period of your Sevvai (Mars) period.)

November 2030 to October 2031, when you are 38–39, the Sade Sati years fall in a good stretch of your life. It tends to bring a rise in standing, help you give to relatives and a settled and contented life. (Why: this is the Guru (Jupiter) sub-period of your Sevvai (Mars) period. Guru (Jupiter) rules your first and fourth houses and is well placed in your chart.)

October 2031 to May 2032, when you are 39–40, the Sade Sati years fall in a stretch that also asks for care. It can bring missteps when you speak in public, bad advice steering your plans and promises that slip, so keep commitments small then. (Why: this is the Shani (Saturn) sub-period of your Sevvai (Mars) period. Shani (Saturn) rules your second and third houses and is not well placed: it is too close to the Sun.)

The first stretch where both ask for care runs from March 2027 to November 2028. Keep the largest decisions and loans away from it if you can.

Until January 2027, and again from June 2027, continuing past November 2027, when you are 34–35, is a good stretch, mostly at work, as Guru (Jupiter) passes. What it tends to bring: at work, favour from people in authority; with family and

friends, joy through children, or a child born into the family and friendships with good people. It pauses until November 2026, while Sevvai (Mars) stands in your fourth from the Moon, from December 2026, while Ketu stands in your fourth from the Moon and from June 2027, while Ketu stands in your fourth from the Moon, and gives its good result on its other days in this sign. Your own chart backs it well here. Spend time with people you admire, and put your requests to those in authority. (Why: Guru (Jupiter) moves through the fifth from your Moon sign, in Simha (Leo), a good place for it, and your chart gives it 6 of 8 points there.)

Until June 2027, and again from October 2027, continuing past November 2027, when you are 34–35, asks for care, mostly at work, as Shani (Saturn) passes. What it can bring: at work, work that takes much and returns little; with money, money lost to theft or trickery. Your own chart gives it middling support here, so expect more worry than harm. Put no money into a venture you cannot check yourself, and keep valuables and papers secure. (Why: Shani (Saturn) moves through the twelfth from your Moon sign, in Meena (Pisces), a hard place for it, and your chart gives it 3 of 8 points there.)

January 2027 to June 2027, when you are 35, asks for care, mostly at work, as Guru (Jupiter) passes. What it can bring: at work, slights to your standing; with family and friends, trouble through relatives. Your own chart gives it middling support here, so expect more worry than harm. Stay patient with relatives, and keep disagreements private. (Why: Guru (Jupiter) moves through the fourth from your Moon sign, in Karka (Cancer), a hard place for it, and your chart gives it 3 of 8 points there.)

June 2027 to October 2027, when you are 35, asks for care, mostly at work, as Shani (Saturn) passes. What it can bring: at work, worry about opponents; with family and friends, time apart from your family; for you, travel. Your own chart gives it little support here, so money tends to go out. Keep commitments within what you can carry, and hold your routine steady — sleep, meals, the daily walk. (Why: Shani (Saturn) moves through the first from your Moon sign, in Mesha (Aries), a hard place for it, and your chart gives it 2 of 8 points there.)

| Planet | Sign | From | To | Your chart's score | What it is made of |
|---|---|---|---|---|---|
| Guru (Jupiter) (now) | Simha (Leo) | 31 Oct 2026 | 25 Jan 2027 | 6/8 | Judgement, learning and what you make come forward. Take care here with the heavier planets. The points your own chart gives weigh more than the place does. (Why: Guru (Jupiter) is crossing Simha (Leo), the fifth from your moon sign — a trine, but the classical transit tables treat the fifth cautiously for the heavier grahas, which is why the bindu count matters more than the house.) This crossing counts as favourable here. (Why: the classical transit tables count this house favourable for Guru (Jupiter).) |
| Shani (Saturn) (now) | Meena (Pisces) | 29 Mar 2025 | 3 Jun 2027 | 3/8 | Spending, distance and retreat mark this one. It pulls toward solitude and toward what you let go on purpose. (Why: Shani (Saturn) is crossing Meena (Pisces), the twelfth from your moon sign.) This crossing does not count as favourable here. (Why: the classical transit tables do not count this house favourable for Shani (Saturn).) |

| Planet | Sign | From | To | Your chart's score | What it is made of |
|---|---|---|---|---|---|
| **Rahu (now)** | **Kumbha (Aquarius)** | **18 May 2025** | **5 Dec 2026** | **not scored** | **Gains hold here. Even the heavy planets build something for you in this stretch. (Why: Rahu is crossing Kumbha (Aquarius), the eleventh from your moon sign — the house of gains, the best transit place in the classical tables for every graha, and the one stretch where even the heavy grahas are read as building something.) This crossing counts as favourable here. (Why: the classical transit tables count this house favourable for Rahu.)** |
| **Ketu (now)** | **Simha (Leo)** | **18 May 2025** | **5 Dec 2026** | **not scored** | **The second planet listed in Simha (Leo): the first Simha (Leo) entry above says what this stretch brings. (Why: Ketu is crossing Simha (Leo), the fifth from your moon sign.) This crossing does not count as favourable here. (Why: the classical transit tables do not count this house favourable for Ketu.)** |
| Rahu | Makara (Capricorn) | 5 Dec 2026 | continues past 12 Nov 2027 | not scored | This shows in what you do and in how other people see you doing it. It is the most externally visible of the twelve. (Why: Rahu is crossing |

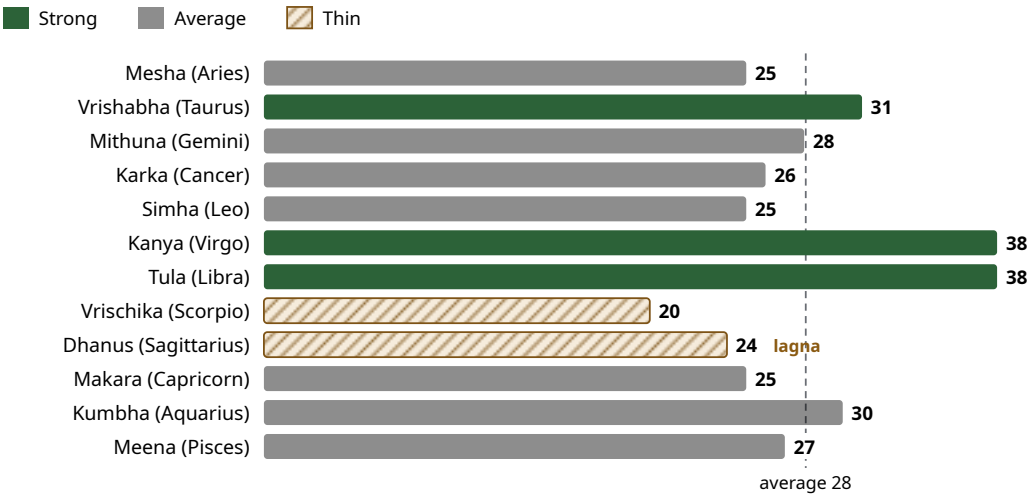

| Planet | Sign | From | To | Your chart's score | What it is made of |
|---|---|---|---|---|---|
| | | | | | Makara (Capricorn), the tenth from your moon sign — action and standing.) This crossing counts as favourable here. (Why: the classical transit tables count this house favourable for Rahu.) |
| Ketu | Karka (Cancer) | 5 Dec 2026 | continues past 12 Nov 2027 | not scored | Home and peace of mind are where this shows. It asks you to give home life attention; it does not damage it. (Why: Ketu is crossing Karka (Cancer), the fourth from your moon sign.) This crossing does not count as favourable here. (Why: the classical transit tables do not count this house favourable for Ketu.) |
| Guru (Jupiter) | Karka (Cancer) | 25 Jan 2027 | 26 Jun 2027 | 3/8 | The second planet listed in Karka (Cancer): the first Karka (Cancer) entry above says what this stretch brings. (Why: Guru (Jupiter) is crossing Karka (Cancer), the fourth from your moon sign.) This crossing does not count as favourable here. (Why: the classical transit tables do not count this house favourable for Guru (Jupiter).) |
| Shani (Saturn) | Mesha (Aries) | 3 Jun 2027 | 20 Oct 2027 | 2/8 | This one touches you directly. Whatever the planet is about becomes personal while it lasts, |

| Planet | Sign | From | To | Your chart's score | What it is made of |
|---|---|---|---|---|---|
| | | | | | and it is not something you can hold at a distance. (Why: Shani (Saturn) is crossing Mesha (Aries), your own moon sign.) This crossing does not count as favourable here. (Why: the classical transit tables do not count this house favourable for Shani (Saturn).) |
| Guru (Jupiter) | Simha (Leo) | 26 Jun 2027 | continues past 12 Nov 2027 | 6/8 | Back in Simha (Leo) after leaving it on 25 Jan 2027: the first Simha (Leo) entry above says what this stretch brings. (Why: Guru (Jupiter) returns to Simha (Leo), the fifth from your moon sign.) This crossing counts as favourable here. (Why: the classical transit tables count this house favourable for Guru (Jupiter).) |
| Shani (Saturn) | Meena (Pisces) | 20 Oct 2027 | continues past 12 Nov 2027 | 3/8 | Back in Meena (Pisces) after leaving it on 3 Jun 2027: the first Meena (Pisces) entry above says what this stretch brings. (Why: Shani (Saturn) returns to Meena (Pisces), the twelfth from your moon sign.) This crossing does not count as favourable here. (Why: the classical transit tables do not count this house favourable for Shani (Saturn).) |

The table covers the twelve months from today: where each slow graha stands now, and the date it next changes sign.

## 4 Where your chart is supported, and where it is thin

> **Your chart supports Kanya (Virgo) most, with 38 of the 56 points a sign can hold.**

Each sign's total of points, in zodiac order. The full grid is in the table below.

| Graha | Mesha (Aries) | Vrishabha (Taurus) | Mithuna (Gemini) | Karka (Cancer) | Simha (Leo) | Kanya (Virgo) | Tula (Libra) | Vrischika (Scorpio) | Dhanus (Sagittarius) | Makara (Capricorn) | Kumbha (Aquarius) | Meena (Pisces) |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Surya (Sun) | 4 | 3 | 4 | 3 | 4 | 6 | 6 | 3 | 3 | 5 | 4 | 3 |
| Chandra (Moon) | 3 | 6 | 5 | 4 | 3 | 6 | 5 | 2 | 1 | 3 | 7 | 4 |
| Sevvai (Mars) | 4 | 4 | 4 | 3 | 1 | 6 | 6 | 1 | 2 | 3 | 4 | 1 |
| Budha (Mercury) | 3 | 4 | 3 | 6 | 4 | 6 | 5 | 5 | 4 | 6 | 4 | 4 |
| Guru (Jupiter) | 3 | 5 | 5 | 3 | 6 | 6 | 6 | 1 | 7 | 4 | 3 | 7 |
| Shukra (Venus) | 6 | 5 | 3 | 4 | 6 | 2 | 5 | 5 | 4 | 2 | 5 | 5 |
| Shani (Saturn) | 2 | 4 | 4 | 3 | 1 | 6 | 5 | 3 | 3 | 2 | 3 | 3 |
| All seven | 25 | 31 | 28 | 26 | 25 | 38 | 38 | 20 | 24 | 25 | 30 | 27 |

Your chart carries the most support in Kanya (Virgo), Tula (Libra), Vrishabha (Taurus), with 38 points in the first of them. When a slow planet crosses these signs, what it brings you tends to come without a struggle. Plan bigger moves for those crossings: whatever else is going on, they stay workable. (Why: those points are bindus — the marks counted in the grid.)

The thinnest support is in Makara (Capricorn), Dhanus (Sagittarius), Vrischika (Scorpio), the signs your chart backs least. This is not a warning and it is not a bad part of your chart. When a slow planet crosses one of those signs it has less to give you. The same transit you would not notice elsewhere is the one you are likely to feel there. You will find the next such crossing below, if there is one.

Neither Saturn nor Jupiter enters one of those signs in the next 3 years. So there is no difficult crossing to plan around.

Sample (invented birth), this is yours to keep. Come back to it whenever you need it.

---

## 5 How these numbers are made

The words used above, defined — so you can check the reading against them, or hand these pages to the astrologer your family asks.

A transit is where a graha stands in the sky now, read against where it stood at birth. The dasha sequence is fixed at birth and runs on its own clock regardless of the sky; a transit is the sky itself and is the same for everybody alive on a given day. What makes a transit personal is the birth chart it is measured against — the same crossing falls on a different house, and on a different number of bindus, for two people born a month apart. The slow grahas are the ones read this way, because Saturn takes about two and a half years to cross a sign and Jupiter about one, while the Moon crosses one in two and a quarter days. Every transit in this report is counted from the sign the Moon held at birth, not from the lagna. Both are classical and gochara is the branch that uses the Moon, which is why a reading taken from your lagna will name different houses for the very same sky. If one you have been given elsewhere disagrees with this table, that is usually the reason, and neither reading is a mistake.

Each of the seven grahas is scored from eight reference points — the seven grahas and the ascendant — and each reference contributes one point, a bindu, in the signs the classical table names benefic for that pairing. A graha's own grid therefore runs nought to eight in each sign, and the Sarvashtakavarga adds the seven grids

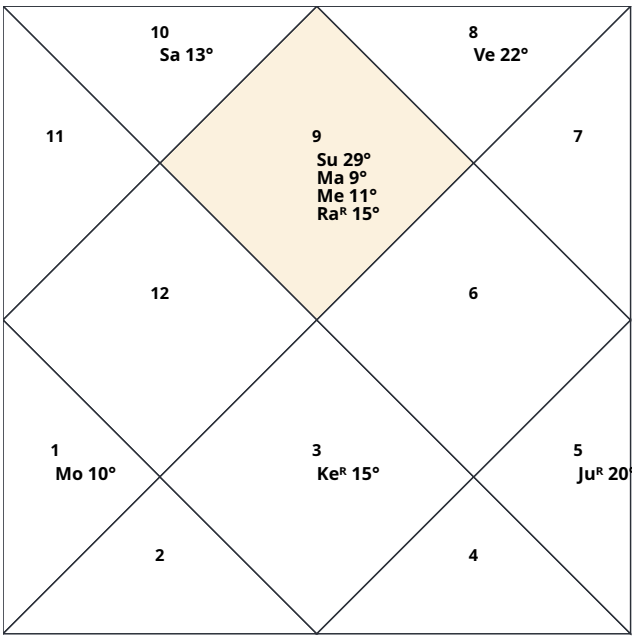

together, which is why its totals run nought to fifty-six and sum to 337 across the twelve signs. The 337 is a property of the tables rather than a coincidence, and it is one of the few checks available on a transcription of them.

The grids above are unreduced. Traditional practice narrows the figures further before some judgements, in several steps, but the order of the steps changes the result, so they are left out rather than guessed. If you compare these numbers with an astrologer's, that is why they may differ.

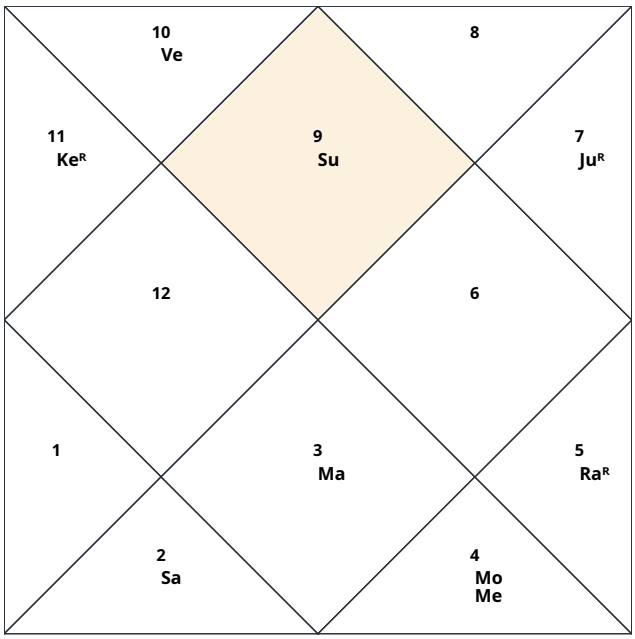

# For your family astrologer

The charts, planetary positions and settings behind this report. These pages are for your jothidar, who can check every finding in this report against them.

## 6 Your charts

Rasi (D1) — your birth chart

Navamsa (D9) — where each planet's strength is checked

Rasi (D1) — your birth chart

Navamsa (D9) — where each planet's strength is checked

How to read these charts: the diamond at the top centre is your rising sign, and it never moves. Count the houses anticlockwise from it. The number in each house is its sign, 1 for Mesha to 12 for Meena. The short names are the planets in it. (Why: that diamond is your lagna, the first house.)

## 7 Where the planets stand

| Planet | Sign | Degree | House | Star | Strength |
|---|---|---|---|---|---|
| Surya (Sun) | Dhanus (Sagittarius) | 29°22' | 1 | Uttara Ashadha 1 | Friendly sign |
| Chandra (Moon) | Mesha (Aries) | 10°44' | 5 | Ashwini 4 | Neutral |
| Sevvai (Mars) | Dhanus (Sagittarius) | 9°42' | 1 | Mula 3 | Friendly sign |

| Planet | Sign | Degree | House | Star | Strength |
|---|---|---|---|---|---|
| Budha (Mercury) | Dhanus (Sagittarius) | 11°56' | 1 | Mula 4 | Neutral |
| Guru (Jupiter) | Simha (Leo) | 20°33' ℞ | 9 | Purva Phalguni 3 | Friendly sign |
| Shukra (Venus) | Vrischika (Scorpio) | 22°30' | 12 | Jyeshtha 2 | Neutral |
| Shani (Saturn) | Makara (Capricorn) | 13°36' | 2 | Shravana 2 | Own sign |
| Rahu | Dhanus (Sagittarius) | 15°22' ℞ | 1 | Purva Ashadha 1 | — |
| Ketu | Mithuna (Gemini) | 15°22' ℞ | 7 | Ardra 3 | — |

Your Sun stands in Dhanus (Sagittarius). Western astrology would call it Makara (Capricorn). Both are measuring the same sky from different starting points. This document counts from the fixed stars, the Western one from the spring equinox. The two have drifted 23° 45′ apart, which is the whole difference. That gap is why the sign you may already know is usually the one after this. Everything in this document uses the sidereal position.

| | |
|---|---|
| Ayanamsa | Lahiri (Chitrapaksha) |
| Ayanamsa value | 23° 45′ 3″ |
| House system | Whole sign (rasi) |
| Rahu and Ketu | Mean nodes — the smoothed node, which is what every printed almanac uses |
| Dasha year | Julian year (365.25 days) |

These four choices decide the numbers above. An astrologer working from a different setting will get a chart that disagrees with this one. The disagreement is in the convention rather than in the arithmetic. That is the first thing to check when this chart and one you already have disagree. (Why: a different ayanamsa or a different node gives different numbers.)
