- Go to people in authority for what you need, and make plans with the family.

1 Your coming year, and what to do

Sample (invented birth), the coming year is mixed: results come with steady work, most of all from October 2026 to March 2027.

After that: March 2027 to November 2028, from age 35 to 36. Jupiter's movement also helps from October 2026 to January 2027. Put your big plans between October 2026 and March 2027, and keep something in reserve for slower months. Avoid starting everything at once. (Why: Ketu and Chandra (Moon), the two planets running this time, work well together.)

Your better window for a new or better job is October 2035 to May 2036. You are 43 to 44 then. An earlier one, November 2032 to November 2033, can bring it too, but it is harder going. When it comes, that stretch tends to bring debts cleared, a rise in position and disputes coming to an end. Until November 2032, build one skill employers ask for and keep applying. Avoid quitting a job before the next one is in hand. (Why: Chandra (Moon) runs this stretch, and it is the planet your chart gives for your line of work.)

Marriage comes into focus for you in the coming year, from October 2026 to March 2027. After that: November 2028 to May 2029, from age 36 to 37. Jupiter's movement also helps from October 2026 to January 2027. Tell family you are ready and meet proposals between October 2026 and March 2027. (Why: Ketu runs this stretch, and it sits in your seventh house, the house of marriage.)

The coming year asks for care with money, most of all from March 2027 to November 2028. When it comes, that stretch tends to bring loss through theft and being misled. You are 35 to 36 then. Jupiter's movement also helps from October 2026 to January 2027. Keep three months of expenses aside. Avoid big purchases and lending from March 2027 to November 2028. (Why: Shukra (Venus) runs this stretch within your Chandra (Moon) period, and the two pull against each other.)

Your Sade Sati runs until May 2032; your own period is not a hard one, so it weighs less than its name. Day to day, it tends to bring work that takes much and returns little and money lost to theft or trickery. Take small, steady steps, and ask family or friends for help. If it feels too heavy, call Tele-MANAS on 14416; it is free. (Why: Saturn is passing over or beside your Moon sign, which is Sade Sati.)

2 The period you are in now

You are in a chapter of your life that lasts 10 years and ends in May 2029. Until March 2027, you are in a quiet stretch. From March 2027 to November 2028, take care. That stretch can bring setbacks. Keep records, guard your belongings and step away from fights you can avoid. Your next good stretch runs from November 2028 to May 2029. It brings prosperity shared with the family, good works, favour from people in authority and time for worship. (Why: Ketu runs this stretch inside the Chandra (Moon) period.)

The hardest stretch still ahead runs from March 2027 to November 2028, inside your Chandra (Moon) period. No other hard stretch comes before this period ends. (Why: Shukra (Venus) is badly placed in your chart.)

A hard stretch asks more effort of you for the same result, not a bad outcome. What you do in it still decides how it ends.

Ten years under the Moon. A period governed by what you feel rather than what you decide. It turns you toward home, family and the people you are attached to, and toward an openness that makes this a good stretch for what needs care and a difficult one for what needs a firm edge.

Chandra (Moon) (lived)	25 May 2019	25 Mar 2020	A new chapter opens; plan around the stretches that follow, which carry what it brings.	Quiet	You get the larger period's themes at full strength. (Why: Chandra (Moon) runs this stretch as well as the larger period, so nothing from another planet is mixed in.) Its tie to the larger period is favourable. (Why: that is the Chandra (Moon) period.)
Sevvai (Mars) (lived)	25 Mar 2020	24 Oct 2020	Expect a child born into the family, spending on good causes, respect and good times among relatives and good works. Your own chart decides this stretch; the larger period neither helps nor hinders it. (Why: Shani (Saturn) is neutral to Chandra (Moon).) It shows in what you do and in how others see you doing it. (Why: Shani (Saturn) stands tenth from Chandra (Moon), the distance of action.) A mixed stretch: gains and comfort at times, friction with those closest to you at others. Budha (Mercury) (lived)	25 Mar 2025	25 Aug 2026	Expect new clothes and jewellery, work you started carried through to completion, good times with your partner and a settled and contented life. Make time for your partner; celebrations and trips go well now. Finish what you have started and go for the settled position.	Good	(Why: Budha (Mercury) rules your seventh and tenth houses and is well placed in your chart.) What you start in this stretch tends to move without a fight: it works with the larger period, not against it. (Why: Budha (Mercury) is a natural friend of Chandra (Moon).) Luck comes through people: teachers, elders and those who can open a door for you. A fortunate stretch. (Why: Budha (Mercury) stands ninth from Chandra (Moon), the strongest good distance.) Check claims and offers before you trust them.	Take care	(Why: Shukra (Venus) rules your sixth and eleventh houses and is not well placed: it stands in your twelfth house.) Your own chart decides this stretch; the larger period neither helps nor hinders it. (Why: Shukra (Venus) is neutral to Chandra (Moon).) The stretch turns on something you cannot see at its start. It is demanding, and it leaves you changed and deeper. (Why: Shukra (Venus) stands eighth from Chandra (Moon), the hardest distance.) Its tie to the larger period is strained. (Why: that is the Chandra (Moon) period.)

(Why: Surya (Sun) stands ninth from Chandra (Moon), the strongest good distance.) Its tie to the larger period is favourable. (Why: that is the Chandra (Moon) period.)

Each row is one stretch of years: what to expect in it, and what to do. Plan for the harder side of a stretch when its planet is badly placed in this chart. You see only what bears on this report's subject, and a hard stretch shows at most three items. (Why: each stretch is a bhukti within a mahadasha; a planet is badly placed in the sixth, eighth or twelfth house, in the sign where it is weakest, in an unfriendly sign, or too close to the Sun; Rahu and Ketu rule no house, and a planet's first stretch in its own period adds nothing of its own, so the last column carries those rows.)

A new long chapter of your life begins on 25 May 2029. The last stretch of the old one starts on 23 Nov 2028, and the first of the new one runs until 21 Oct 2029. (Why: that day your Chandra (Moon) mahadasha hands over to Sevvai (Mars), the dasa sandhi, between the Surya (Sun) bhukti and the Sevvai (Mars) bhukti.)

How long the junction lasts has no fixed measure. You get the date and the two stretches that meet there, and no width. (Why: a dasa is taken at its start and at its end, not by a set number of months either side.)

3 Your recent years, to check against your memory

Before the years ahead, here is how your last few years went. Check each line against what you remember.

March 2020 to October 2020 (age 28): a good stretch. It tends to bring a child born into the family, spending on good causes and respect and good times among relatives. (Why: Sevvai (Mars) rules your fifth and twelfth houses and is well placed in your chart.)

April 2022 to August 2023 (age 30–31): a good stretch. It tends to bring a rise in standing, help you give to relatives and a settled and contented life. (Why: Guru (Jupiter) rules your first and fourth houses and is well placed in your chart.)

March 2025 to August 2026 (age 33–34): a good stretch. It tends to bring new clothes and jewellery, work you started carried through to completion and good times with your partner. (Why: Budha (Mercury) rules your seventh and tenth houses and is well placed in your chart.)

Sample (invented birth), you may remember these years that way. This report dates the years ahead by the same rule.

4 Your next twelve months, stretch by stretch

Your best stretch of the next twelve months is 23 Dec 2026 to 21 Jan 2027: if you can choose when to start something, start it there. The stretch that asks the most of you is 26 Mar 2027 to 3 Jun 2027 — keep new commitments out of it, and finish what is already running.

Your next twelve months in 16 stretches. A new row begins only where something changes — a bhukti, an antaram, or the sign Shani, Guru or Rahu stands in — and the first column says what began. Inside a row nothing changes. The bhukti and antaram columns give the dascha period and how it reads, in the same words as the dascha tables in this report. The Shani, Guru and Rahu columns give the sign each stands in, the house it occupies counted from your Moon, and whether the classical transit tables count that house favourable; for Shani and Guru they add the bindus, the points out of eight your own chart gives that graha in that sign (Rahu has none). Every date here was worked out on 24 Oct 2026 from your birth details and the positions of the grahas. They are fixed: reading this again later does not move them.

How each stretch is read, and how the two above were picked. A period marked Good or a favourable transit counts one for the stretch, a period marked Take care or a transit that is not favourable counts one against it, and a Quiet period counts neither. The bindus are shown and not counted; the transit section sets them beside the classical verdict for each sign change. The stretch with the highest total reads best and the one with the lowest asks the most; where two tie, the longer is named. Only stretches of three weeks or more are named, because a four-day row is where two clocks happened to turn over rather than a

month you could plan around. The count weighs every column the same, while a dasha period usually carries more weight than any one transit, so a difference of one or two between stretches is a small one. More rows will say they ask more of you than lean your way, on almost any chart: the classical tables count three houses of twelve favourable for Shani, four for Rahu and five for Guru, so read the last column as a comparison between your own stretches rather than as a grade of the year.

Here is the same year again, one part of your life at a time. Every stretch named below falls inside these twelve months, so you can plan around it.

Work and career. 23 Feb 2027 to 26 Mar 2027 is your open stretch this year. Expect work you started carried through to completion, your name becoming known and a settled and lasting position. Finish what you have started and go for the settled position; completed work is what gets credited now. 26 Mar 2027 to 3 Jun 2027 asks more of you. Keep records, guard your belongings and step away from fights you can avoid; take work on others' terms as a stage, not a verdict. Check claims and offers before you trust them. The stretch is in your chart; the offer, the posting and the pay are not.

Marriage. 5 Jul 2027 to 4 Aug 2027 is your open stretch this year. Start the plans you share for the household; what the two of you build now holds. Whether one particular person suits you needs both charts, in the matching report.

Money and debts. 23 Dec 2026 to 21 Jan 2027 is your open stretch this year. Expect prosperity that keeps growing and wealth. Let savings grow: add to them on a fixed day each month. Make the larger purchase you have planned from money already in hand. 26 Mar 2027 to 3 Jun 2027 asks more of you. Guard cash and belongings, and keep a record of what you lend. How much comes in is not in your chart, and no stretch here is a reason to borrow.

House and land. 23 Dec 2026 to 21 Jan 2027 is your open stretch this year. Expect success with land and farming, a vehicle and new land. If you mean to buy land, a house or a vehicle, this is the stretch to move on it; check the papers as

carefully as ever. 26 Mar 2027 to 3 Jun 2027 asks more of you. Secure the house and vehicles, and keep a record of what you own. Which house, at what price, and whether a deal closes are not in your chart.

Children. 5 Jul 2027 to 4 Aug 2027 is your open stretch this year. Plan for the children's needs with the family; what you set up for them now holds. Whether a child comes, and whether it is a boy or a girl, your chart does not say.

Studies and exams. 23 Feb 2027 to 26 Mar 2027 is your open stretch this year. Expect learning that comes easily and praise from teachers and learned people. Take the course, exam or application you have been weighing; study goes in easily now. 25 Jan 2027 to 23 Feb 2027 asks more of you. It can bring missteps when you speak in public. Prepare presentations and interviews more thoroughly than you think you need to. A pass, a rank or a seat is not in your chart.

Family and home. 4 Aug 2027 to 24 Sep 2027 is your open stretch this year. Expect more hands and more means at home. Arrange the help at home you have been meaning to. 25 Jan 2027 to 23 Feb 2027 asks more of you. It can bring promises that slip and sharp words. Promise the family only what you can keep, and let a sharp reply wait. What another person decides is theirs. Your chart dates your own stretches, not theirs.

Travel and living abroad. 23 Feb 2027 to 26 Mar 2027 is your open stretch this year. Expect trips for pleasure. Take the holiday; trips for pleasure go well in this stretch. Which country, and whether a visa clears, your chart does not say.

Worship and peace of mind. 5 Jul 2027 to 4 Aug 2027 is your open stretch this year. Keep regular worship, and make the temple visit you have been meaning to. Peace of mind is built by what you do. No stretch here decides it for you.

5 The weeks and months ahead, dated

Your next good weeks run from 9 Nov 2026 to 21 Nov 2026. A row above says what they bring. The weeks you are in now last until 9 Nov 2026. (Why: Sevvai (Mars) runs those weeks; see the Sevvai

(Mars) row.)

Sample (invented birth), your time runs in three layers. The long period sets the theme for years, the stretch inside it for months, and the short stretch inside that for weeks. A short stretch does not change the direction of the months around it; it colours your weeks. (Why: the three layers are the mahadasha, the bhukti and the antaram.)

Bhukti	Antaram	From	To	What it brings	For you	What it is made of
Ketu	Ketu (lived)	25 Aug 2026	6 Sep 2026	Plan by the last column: this stretch brings no matters of its own.	Quiet	You get the larger period's themes at full strength. (Why: Ketu runs this stretch as well as the larger period, so nothing from another planet is mixed in.) Its tie to the larger period is favourable. (Why: that is the Ketu period.)
Ketu	Shukra (Venus) (lived)	6 Sep 2026	11 Oct 2026	Same as the row above. (Why: Shukra (Venus) again.)	Take care	Expect opposition, debts or strain on your health. Deal with them head-on; waiting them out goes worse. (Why: Shukra (Venus) stands sixth from Ketu, a difficult distance.) Its tie to the larger period is strained. (Why: that is the Ketu period.)
Ketu	Surya (Sun) (lived)	11 Oct 2026	22 Oct 2026	Same as the row above. (Why: Surya (Sun) again.)	Good	Results come through other people: partners, agreements and negotiation, more than anything you do alone. (Why: Surya (Sun) stands seventh from Ketu, directly opposite.) Its tie to the larger

						period is favourable. (Why: that is the Ketu period.)
Ketu	Chandra (Moon) (now)	22 Oct 2026	9 Nov 2026	Expect debts cleared, a rise in position, disputes coming to an end and more hands and more means at home. Clear debts and settle old disputes; both close more easily now.	Good	What you build up now tends to stay, and it comes mostly through other people. (Why: Chandra (Moon) stands eleventh from Ketu, the distance of gains.) Its tie to the larger period is favourable. (Why: that is the Ketu period.)
Ketu	Sevvai (Mars)	9 Nov 2026	21 Nov 2026	Same as the row above. (Why: Sevvai (Mars) again.)	Good	Results come through other people: partners, agreements and negotiation, more than anything you do alone. (Why: Sevvai (Mars) stands seventh from Ketu, directly opposite.) Its tie to the larger period is favourable. (Why: that is the Ketu period.)
Ketu	Rahu	21 Nov 2026	23 Dec 2026	Plan by the last column: this stretch brings no matters of its own. (Why: that is the Ketu period.)
Ketu	Shani (Saturn)	21 Jan 2027	23 Feb 2027	Same as the row above. (Why: Shani (Saturn) again.)	Take care	The stretch turns on something you cannot see at its start. It is demanding, and it leaves you changed and deeper. (Why: Shani (Saturn) stands eighth from Ketu, the hardest distance.) The pressure is real, and you have the strength to meet it rather than suffer it. (Why: Shani (Saturn) is in its own or its exaltation sign in your chart.) Its tie to the larger period is mixed. Shukra (Venus)	Surya (Sun)	5 Jul 2027	4 Aug 2027	Same as the row above. (Why: Surya (Sun) again.)	Good	This stretch adds to what you hold: your money, your family and the weight of your words. One more set of periods, built differently. Two people born in the same week can get different orders here, which is not true of the tables above. The wheel turns once in eighty-three to a hundred years. (Why: this one runs through signs rather than planets, and the quarter of the nakshatra the Moon held at birth sets their order.)

You are in the Vrischika (Scorpio) period of this wheel until December 2030. (Why: Karka (Cancer) is the body sign of this wheel and Meena (Pisces) the life sign.)

Karka (Cancer)	21	6 Dec 1972	6 Dec 1993

One more short cycle, thirty-six years long. It runs through eight named periods rather than through planets, though each name carries a planet with it. The names are the ones your grandmother's astrologer would use.

You are in Bhramari until October 2028. (Why: Sevvai (Mars) carries this period.)

6 Your dasha periods

You are in a long chapter of your life that runs until May 2029. Use the table below to see what each chapter brings you. (Why: this is your Chandra (Moon) mahadasha.)

The nine periods of the 120-year cycle at a glance, from birth. Every date is in the table below.

Chandra (Moon) (now)	25 May 2019	25 May 2029	Tends to bring you debts cleared, a rise in position and disputes coming to an end.
Sevai (Mars)	25 May 2029	25 May 2036	Tends to bring you a child born into the family, spending on good causes and respect and good times among relatives.
Rahu	25 May 2036	25 May 2054	the self, the body and health, and how things begin
Guru (Jupiter)	25 May 2054	25 May 2070	Tends to bring you a rise in standing, help you give to relatives and a settled and contented life.
Shani (Saturn)	25 May 2070	25 May 2089	Tends to bring you missteps when you speak in public, bad advice steering your plans and promises that slip.
Budha (Mercury)	25 May 2089	26 May 2106	Tends to bring you new clothes and jewellery, work you started carried through to completion and good times with your partner.

Rows that end before today are years you have already lived. Check them against what happened: a period that does not match is worth noting.

7 The years you have already lived

Since you were born you have lived through 26 stretches, the last one ending on 25 Aug 2026. Your chart marks 13 of them Good, 5 Take care and 8 Quiet. Set each row beside the years you remember.

Sample (invented birth), each row is a stretch of your life that has ended: its dates, your age, its word and what it was about. Compare it with how those years felt, not with one event. A Take care row on a year you remember as hard is this rule at work on your own chart. So is a Good row on a year that went well. The same rule dates your years ahead. Where a row does not match, take this table to an astrologer: that is worth knowing too.

8 What is crossing your chart

This stretch runs until 31 Oct 2026. Your chart holds 3 of eight there. (Why: Guru (Jupiter) is crossing Karka (Cancer), the fourth from your Moon.) Shani (Saturn), Rahu, Ketu are moving through this window too, and the table below gives each one's dates.

Right now, and until May 2032, you are in the seven and a half years people call Ezharai Sani (Sade Sati). You will be 40 when it ends.

Sade Sati runs alongside your own life periods, and they shape how its years feel. Here is each stretch of it, under the period of your life running then.

October 2026 to March 2027, when you are 34–35, the Sade Sati years fall in a quiet stretch of your life. What you feel then is mostly Saturn's weight. (Why: this is the Ketu sub-period of your Chandra (Moon) period.)

March 2027 to November 2028, when you are 35–36, the Sade Sati years fall in a stretch that also asks for care. (Why: this is the Shukra (Venus) sub-period of your Chandra (Moon) period. Shukra (Venus) rules your sixth and eleventh houses and is not well placed: it stands in your twelfth house.)

November 2028 to May 2029, when you are 36–37, the Sade Sati years fall in a good stretch of your life. (Why: this is the Surya (Sun) sub-period of your Chandra (Moon) period. Surya (Sun) rules your ninth house and is well placed in your chart.)

May 2029 to October 2029, when you are 37, the Sade Sati years fall in a quiet stretch of your life. What you feel then is mostly Saturn's weight. (Why: this is the Sevvai (Mars) sub-period of your Sevvai (Mars) period.)

October 2029 to November 2030, when you are 37–38, the Sade Sati years fall in a quiet stretch of your life. What you feel then is mostly Saturn's weight. (Why: this is the Rahu sub-period of your Sevvai (Mars) period.)

November 2030 to October 2031, when you are 38–39, the Sade Sati years fall in a good stretch of your life. It tends to bring a rise in standing, help you give to relatives and a settled and contented life. (Why: this is the Guru (Jupiter) sub-period of your Sevvai (Mars) period. Guru (Jupiter) rules your first and fourth houses and is well placed in your chart.)

October 2031 to May 2032, when you are 39–40, the Sade Sati years fall in a stretch that also asks for care. It can bring bad advice steering your plans and promises that slip, so keep commitments small then. (Why: this is the Shani (Saturn) sub-period of your Sevvai (Mars) period. Shani (Saturn) rules your second and third houses and is not well placed: it is too close to the Sun.)

The first stretch where both ask for care runs from March 2027 to November 2028. Keep the largest decisions and loans away from it if you can.

Every house number here starts from your Moon sign, Mesha (Aries), which counts as the first. Numbers taken from your rising sign would differ for the same sky.

Until October 2026, and again January 2027 to June 2027, when you are 34–35, asks for care, mostly at work, as Guru (Jupiter) passes. What it can bring: at work, slights to your standing; with family and friends, trouble through relatives. Your own chart gives it middling support here, so expect more worry than harm. Stay patient with relatives, and keep disagreements private. (Why: Guru (Jupiter) moves through the fourth from your Moon sign, in Karka (Cancer), a hard place for it, and your chart gives it 3 of 8 points there.)

Until June 2027, and again from October 2027, continuing past October 2027, when you are 34–35, asks for care, mostly at work, as Shani (Saturn) passes. What it can bring: at work, work that takes much and returns little; with money, money lost to theft or trickery. Your own chart gives it middling support here, so expect more worry than harm. Put no money into a venture you cannot check yourself, and keep valuables and papers secure. (Why: Shani (Saturn) moves through the twelfth from your Moon sign, in Meena (Pisces), a hard place for it, and your chart gives it 3 of 8 points there.)

Until December 2026, when you are 34, is a good stretch, mostly in how you feel, as Rahu passes. What it tends to bring: for you, happier days. Use the easier months to settle matters left open. (Why: Rahu moves through the eleventh from your Moon sign, in Kumbha (Aquarius), a good place for it.)

Until December 2026, when you are 34, asks for care, mostly at work, as Ketu passes. What it can bring: at work, trouble from rivals and cousins; for you, a short temper and anxiety. Keep your temper, and give rivals nothing to use against you. (Why: Ketu moves through the fifth from your Moon sign, in Simha (Leo), a hard place for it.)

October 2026 to January 2027, and again from June 2027, continuing past October 2027, when you are 34–35, is a good stretch, mostly at work, as Guru (Jupiter) passes. What it tends to bring: at work, favour from people in authority; with family and friends, joy through children, or a child born into the family and

friendships with good people. It pauses from October 2026 to November 2026, while Sevvai (Mars) stands in your fourth from the Moon, from December 2026, while Ketu stands in your fourth from the Moon and from June 2027, while Ketu stands in your fourth from the Moon, and gives its good result on its other days in this sign. Your own chart backs it well here. Spend time with people you admire, and put your requests to those in authority. (Why: Guru (Jupiter) moves through the fifth from your Moon sign, in Simha (Leo), a good place for it, and your chart gives it 6 of 8 points there.)

From December 2026, continuing past October 2027, when you are 34–35, is a good stretch, mostly with money, as Rahu passes. What it tends to bring: with money, gains. Put your effort into your work; it pays now. (Why: Rahu moves through the tenth from your Moon sign, in Makara (Capricorn), a good place for it.)

From December 2026, continuing past October 2027, when you are 34–35, asks for care, mostly at work, as Ketu passes. What it can bring: at work, a position that is hard to hold; with family and friends, trouble through relatives; for you, low spirits. Hold your place at work steadily, and keep family disagreements small. (Why: Ketu moves through the fourth from your Moon sign, in Karka (Cancer), a hard place for it.)

June 2027 to October 2027, when you are 35, asks for care, mostly at work, as Shani (Saturn) passes. What it can bring: at work, worry about opponents; with family and friends, time apart from your family; for you, travel. Your own chart gives it little support here, so money tends to go out. Keep commitments within what you can carry, and hold your routine steady — sleep, meals, the daily walk. (Why: Shani (Saturn) moves through the first from your Moon sign, in Mesha (Aries), a hard place for it, and your chart gives it 2 of 8 points there.)

Rahu (now)	Kumbha (Aquarius)	18 May 2025	5 Dec 2026	not scored	Gains hold here. Even the heavy planets build something for you in this stretch. The table covers the twelve months from today: where each slow graha stands now, and the date it next changes sign.

9 What this period brings

This is what the stretch you are in tends to bring. It says which way the period leans. It is not what you are owed.

Sample (invented birth), what this period brings: 5 things in your chart bear on it, set out below strongest first. 3 of them work in your favour and 2 describe difficulty.

Money is where this stretch hurts. Losses and sudden costs come more easily, and anything you cannot see coming lands here first.

This stretch runs easy. Money comes in, the house has something to celebrate, and you are steadier in yourself than you have been.

The steady parts of your chart are watching this stretch. Support arrives from the side rather than head-on, and what would have gone wrong is caught early.

This shorter stretch leaves the body open to illness. Treat small symptoms early.

10 Where your chart is supported, and where it is thin

Your chart supports Kanya (Virgo) most, with 38 of the 56 points a sign can hold.

Each sign's total of points, in zodiac order. The full grid is in the table below.

Graha	Vrischa Mithu					Vrischi Dhanu Makar Kumb						
	Mesha (Aries)	bha (Taurus)	na (Gemini)	Karka (Cancer)	Simha (Leo)	Kanya (Virgo)	Tula (Libra)	ka (Scorpio)	s (Sagittarius)	a (Capricorn)	ha (Aquarius)	Meena (Pisces)
Surya (Sun)	4	3	4	3	4	6	6	3	3	5	4	3
Chandra (Moon)	3	6	5	4	3	6	5	2	1	3	7	4
Sevvai (Mars)	4	4	4	3	1	6	6	1	2	3	4	1
Budha (Mercury)	3	4	3	6	4	6	5	5	4	6	4	4
Guru (Jupiter)	3	5	5	3	6	6	6	1	7	4	3	7
Shukra (Venus)	6	5	3	4	6	2	5	5	4	2	5	5

Graha	Vrisha Mithu				Vrischi Dhanu Makar				Kumb			
	bha		na		ka		s		a		ha	
	Mesha (Aries)	(Taurus)	(Gemini)	(Cancer)	Simha (Leo)	Kanya (Virgo)	Tula (Libra)	(Scorpio)	(Sagittarius)	(Capricorn)	(Aquarius)	(Pisces)
Shani (Saturn)	2	4	4	3	1	6	5	3	3	2	3	3
All seven	25	31	28	26	25	38	38	20	24	25	30	27

Your chart carries the most support in Kanya (Virgo), Tula (Libra), Vrishabha (Taurus), with 38 points in the first of them. When a slow planet crosses these signs, what it brings you tends to come without a struggle. Plan bigger moves for those crossings: whatever else is going on, they stay workable. (Why: those points are bindus — the marks counted in the grid.)

The thinnest support is in Makara (Capricorn), Dhanus (Sagittarius), Vrischika (Scorpio), the signs your chart backs least. This is not a warning and it is not a bad part of your chart. When a slow planet crosses one of those signs it has less to give you. The same transit you would not notice elsewhere is the one you are likely to feel there. You will find the next such crossing below, if there is one.

Neither Saturn nor Jupiter enters one of those signs in the next 3 years. So there is no difficult crossing to plan around.

11 Your year

✓ Good news

From January 2026 to January 2027, money, savings and family come forward in your year, and your own steady effort is what makes them pay. Keep at it; small steps count this year. You are 34 for this whole year. The year also turns on children, studies and good judgement, and on spending, far travel and rest. (Why: your Muntha stands in the second house of this year's chart, and Sevvai (Mars) rules the year; in your birth chart Sevvai (Mars) rules your fifth and twelfth houses.)

Sevvai (Mars) rules this year of your life, and the sign that marks this year for you is Tula (Libra). Your year runs from one solar return to the next, not from your birthday. It starts at the moment the Sun comes back to exactly where it stood when you were born. (Why: that sign holds your Muntha, which moves one sign on from your birth ascendant for every year completed.)

Detail	Value
Solar return	14 Jan 2026, 00:05
Runs until	14 Jan 2027, 06:08
Years completed	34

Year lord	Sevvai (Mars)
Ascendant of the year	Kanya (Virgo)
Panchavargiya bala (out of 80)	58.0

Sample (invented birth), this year's nearest connection puts together money, savings and family, your own effort, courage and your brothers and sisters, health, loans and rivals for you. It is there this year if you push it, and not otherwise. (Why: Ithasala — approaching, so the matter comes about with effort: Shukra (Venus) and Shani (Saturn) are still closing, 1.8° from exact.)

From January 2027 to January 2028, the part of your year that asks for care is spending, far travel and rest. Go slowly there this year, and check before you commit. You are 35 for this whole year. The year also turns on children, studies and good judgement. (Why: your Muntha stands in the twelfth house of this year's chart, and Sevvai (Mars) rules the year; in your birth chart Sevvai (Mars) rules your fifth and twelfth houses.)

12 Your birth star

Your birth star is Ashwini, quarter 4. In the south this is the answer to "what is your star". It is what a family gives before a horoscope changes hands, and what a temple books a ritual under. Every

marriage match begins from it. It comes from where the Moon stood at your birth, not from your sun sign. (Why: the graha ruling that star is Ketu, and the quarter is its pada.)

What	Yours
Nakshatra	Ashwini
Pada	4
Ruling graha	Ketu
Gana	Deva (divine)
Nadi	Vata (air)
Yoni	Horse
Rajju	Pada (feet)

It also decides which long period you were born into. Your life is divided into long periods, each ruled by a planet. The first one belongs to the ruler of your birth star. How far the Moon had already travelled through that star matters. It decides how much of the first period was spent before you were born. So two children born a few hours apart under the same star start in the same period. But each child has a different amount of it left to run, so every later period starts on a different date. Your timeline is built from exactly this. (Why: those long periods are the dashas.)

The last four rows of the table are stated here and not judged: on their own they tell you nothing. They only say something beside a partner's chart, which is what porutham matching does. If a relative has told you that your nadi or your rajju is a problem, that is a statement about a pairing. It is not about you. You can check it, too. For a marriage, the matching report names which of the ten agree, which do not, and the traditional exceptions that cancel several.

13 What each planet can deliver

In your chart the planet that can deliver most is Surya (Sun). That compares your planets with each other, not against a pass mark.

(Why: 295.2 virupas, across the three sources shown here.)

A planet's place in your chart says what it touches; its strength, which often matters more, says how much you get. A planet in a fine house but weakened and hemmed in delivers less than an ordinary placement with strength behind it. (Why: the figures below are in virupas, sixty to a rupa; the example is a tenth lord that is debilitated.)

Graha	Uchcha (exaltation)	Saptavargaja (seven divisions)	Other positional	Dig (direction)	Naisargika (natural)	Computed
Surya (Sun)	26.5	86.3	90.0	32.5	60.0	295.2
Chandra (Moon)	52.6	67.5	60.0	58.7	51.4	290.2
Sevvai (Mars)	43.9	61.9	105.0	39.0	17.1	266.9
Budha (Mercury)	31.0	39.4	75.0	54.4	25.7	225.5
Guru (Jupiter)	44.8	84.4	45.0	17.2	34.3	225.7
Shukra (Venus)	18.5	121.9	45.0	15.3	42.9	243.5
Shani (Saturn)	32.1	131.3	30.0	4.9	8.6	206.9

Surya (Sun) is the strongest planet in your chart. Shani (Saturn) is the weakest. Take that as which of your planets keep their promises to you most easily, not as good and bad. Do not read every weak planet as bad news: a weak helpful one and a weak harsh one differ. Your weakest planet is very often the one whose lessons you remember most. (Why: helpful and harsh are the benefics and the malefics.)

No total here, on purpose. These are three of the six parts of your planets' strength. Set against a six-part minimum, three parts would call every planet weak, in every chart. The other three are in the detailed strength reading. (Why: the three here are sthana, dig and naisargika bala.)

Sample (invented birth), this is yours to keep. Come back to it whenever you need it.

14 How the three clocks in this report work

The words used above, defined — so you can check the reading against them, or hand these pages to the astrologer your family asks.

A transit is where a graha stands in the sky now, read against where it stood at birth. The dasha sequence is fixed at birth and runs on its own clock regardless of the sky; a transit is the sky itself and is the same for everybody alive on a given day. What makes a transit personal is the birth chart it is measured against — the same crossing falls on a different house, and on a different number of bindus, for two people born a month apart. The slow grahas are the ones read this way, because Saturn takes about two and a half years to cross a sign and Jupiter about one, while the Moon crosses one in two and a quarter days. Every transit in this report is counted from the sign the Moon held at birth, not from the lagna. Both are classical and gochara is the branch that uses the Moon, which is why a reading taken from your lagna will name different houses for the very same sky. If one you have been given elsewhere disagrees with this table, that is usually the reason, and neither reading is a mistake.

Each of the seven grahas is scored from eight reference points — the seven grahas and the ascendant — and each reference contributes one point, a bindu, in the signs the classical table names benefic for that pairing. A graha's own grid therefore runs nought to eight in each sign, and the Sarvashtakavarga adds the seven grids together, which is why its totals run nought to fifty-six and sum to 337 across the twelve signs. The 337 is a property of the tables rather than a coincidence, and it is one of the few checks available on a transcription of them.

The grids above are unreduced. Traditional practice narrows the figures further before some judgements, in several steps, but the order of the steps changes the result, so they are left out rather than guessed. If you compare these numbers with an astrologer's, that is why they may differ.

Varshaphala is a separate system, Tajika, adopted into Indian practice from Persian sources. Its year runs from one solar return to the next — the moment the Sun comes back to the exact degree it held at birth — rather than from a birthday or a calendar year, so it begins on a different date each year and rarely on 1 January. It has its own aspects, its own strength measure and its own year lord, and those are not the ones used everywhere else in this report. Where the two systems disagree they are reported separately rather than averaged.

Each finding follows a classical rule. A dated period describes the kind of time those rules give; it does not fix an event to its dates.

The Tamil edition of this document prints the Tamil month and day beside each dated period as printed Tamil calendars give them: a month begins on the day the Sun enters its sign, by the calendar's own Sun, if it has entered by sunset at the place of birth, and on the next day if not. The chart itself, and every date it reads, is reckoned by Thirukanitha.

Shadbala means six strengths, and three of them are printed here: Sthana bala complete, Dig bala and Naisargika bala. Kala bala, Chesta bala and Drik bala are not, and no total is given. The reason is not that a total would be discouraging; it is that a sum of three of six is not a Shadbala total at all, so comparing it against a Shadbala threshold would be a category error wherever the number happened to land. The three that are missing are each missing for a stated reason: Chesta needs the Seeghrochcha, a Siddhantic construct that respectable calculators reconstruct differently; Kala's sub-components are counted differently by different sources, and the ambiguity is present inside the primary text; and Drik is the only signed component, so whether a malefic aspect subtracts or merely scales down changes its sign rather than its size. House strength, bhava bala — how well each of the twelve houses is supported — is not computed either, so every figure here is a planet's own and none is a house's.

The minimum strength each planet should reach is itself disputed, which is worth knowing before you compare this with another site. One classical table gives 390, 360, 300, 420, 390, 330 and 300 virupas for the Sun through Saturn;

another differs on three of the seven; and one modern school gives the Sun five rupas where the older table gives six and a half. So two sites can call the same Sun strong and weak, depending on which table they use.

Navamsa (D9) — where each planet's strength is checked

How to read these charts: each square is a sign and never moves. Mesha is always second in the top row. The square with a slanting line across its corner is your rising sign ("La" in a hand-written jathagam). Count the houses clockwise from it. The short names are the planets in that sign. (Why: that square is your lagna, the first house.)

Your Sun stands in Dhanus (Sagittarius). Western astrology would call it Makara (Capricorn). Both are measuring the same sky from different starting points. This document counts from the fixed stars, the Western one from the spring equinox. The two have drifted 23° 45' apart, which is the whole difference. That gap is why the sign you may already know is usually the one after this. Everything in this document uses the sidereal position.

Ayanamsa Lahiri (Chitrapaksha)

Ayanamsa value 23° 45' 3"

House system Whole sign (rasi)

Rahu and Ketu Mean nodes — the smoothed node, which is what every printed almanac uses

Dasha year Julian year (365.25 days)

These four choices decide the numbers above. An astrologer working from a different setting will get a chart that disagrees with this one. The disagreement is in the convention rather than in the arithmetic. That is the first thing to check when this chart and one you already have disagree. (Why: a different ayanaamsa or a different node gives different numbers.)
